So I made some decisions on the fate questions on the clopyralid ID in the absence of feedback from the team.

Also, I reviewed the entire clopyralid and fenpyroximate IDs. However, I didn't address pollinator issues, etc. So there are questions to EFED that I didn't feel like I could answer, but the spelling and grammar are much improved!

I think I am going to miss you, Steve!!! lol. I just checked the G drive and Jim only had the PWC but did not see the final version after your comments.

Hi Steve,

Hi Steve,

I know today is your last day in the office for a while. Just so I'm clear on where everything is, can you send an update before you leave today on where your action items are?

1. Aldicarb DWA – I know you sent Jim your review. I didn't see a revised version from Jim. Did he send one to you or Karen? Is it on the G drive? I haven't seen a revised version either.

2. Fluazy DWA – Did you finish your review by the 3rd? Is Megan in a good place or still need some feedback? I did. Megan has been revising and I was going to give her feedback to her revisions as soon as I finish nicarbazin.
3. Nicarbazin DRA – Finish your revisions? Since we need to sign in Dec, I would need to sign for you. I have finished Bill's concern. Feel free to sign for me. I'm just going back through to make sure I didn't miss anything else. I addressed Bill's concern with a paragraph [Ex. 5 Deliberative Process (DP)]

Ex. 5 Deliberative Process (DP)

4. Subsurface metabolism – not sure if there ended up being any action items for you I believe comments are due back by Dec. 10th. I may, or may not work, on this this weekend, but believe I have already given my important comments.
5. Napropamide DWA and DRA – I will sign for you unless you want to log into work at some point to do that (same for nicarbazin). Given our question [Ex. 5 Deliberative Process (DP)] depending on their comments, we may need to redo work which I will have Karen review. I feel confident that your signature will suffice and am comfortable with creating more work for Karen. ☺

Am I missing anything? I did my ethics training, and it would be good if you could let Justin and Sue Thomas know if Jerrett will be able to do the **SRAC QC as soon as possible** since they want to wrap that up in December.

Thanks and I hope you enjoy your time off, I'll try!
Amy

Also, comments have come back from [Ex. 5 Deliberative Process (DP)] I haven't looked through the comments yet to know how much work is involved.

That looks good from my recollection. I will have the aldicarb back to Jim tonight. Rick just sent me his DWA. I will try to finish tomorrow. I would like to briefly look over the changes to the napropamide DRA, if possible (concurrent with your review?).

Hi Steve,

I just wanted to touch base with you to make sure you are clear on what your tasks are and the timelines around those? Karen and I can talk with you for a few minutes today if that would help. Below is what I am tracking.

1. Aldicarb DWA – see previous email on my understanding. Jim is out this Thurs-Monday and then again starting 12/3, so having your review to him before he leave for Dec would be ideal.
2. Napropamide DWA – Rick is suppose to give you a copy to review by COB today. I'm hoping that since you have worked closely with him and reviewed the DRA that your review will go quickly, but see note below
3. Napropamide DRA – in light of

Ex. 5 Deliberative Process (DP)
--
4. Fluazy DWA – you will have a copy waiting for you Monday morning. Need to review by the 3rd.
5. Nicarbazin DRA – at panel now, review back not until Tues?, you will need to make reviews before you leave. Since we need to sign in Dec, I would need to sign for you.

Karen, Steve - Am I missing anything major?

Amy
